

Based on TecDoc comparison: the leading position for coverage is a fact for all markets

MOOG PROVIDES THE MOST COMPREHENSIVE COVERAGE

Challenge: offering the most comprehensive coverage of quality steering and suspension parts

MOOG supports installers and distributors in their ambition to give its customers the best service in the market. Fast and complete availability of steering and suspension parts is vital for optimized customer satisfaction. **MOOG keeps on investing in its range of parts for a maximum of makes** - without compromising on quality and delivery times.

MOOG Easy solutions:

- **In 7 out of 8 product categories MOOG already offers the largest choice:** Front and rear suspension arms, ball joints, link stabilisers, front and rear wheel bearings, tie rod ends, axial rods.
- **With over 85 % coverage in the recently launched Wheel bearings category,** we show our commitment to be the absolute number one in quality steering and suspension parts.

The car parcs from the following 29 European countries were used in the survey: Austria, Belgium, Switzerland, Czech Republic, Germany, Denmark, Spain, Estonia, France, Finland, United Kingdom, Greece, Hungary, Croatia, Italy, Ireland, Iceland, Luxembourg, Lithuania, Latvia, Norway, Netherlands, Portugal, Poland, Russia, Sweden, Slovak Republic, Slovenia, Ukraine.
